

Steve Harris

CLUB 20 Water Chairman

Steve Harris is the President of Harris Water Engineering, Inc., in Durango which he formed in 1983 to provide general water resources consulting services in southwest Colorado. He has a Bachelor of Science in Civil Engineering and a Bachelor of Arts in Urban Studies from the University of Southern California. He has 33 years of experience in water resources engineering experience. He is presently on the Colorado Water Resources and Power Development Authority Board of Directors, Chair of the Southwest 1177 Roundtable, he was on the Board and president of the Animas-LaPlata Water Conservancy District during the 1990's, and the Durango City Water Commission for 15 years. Steve has observed that the number and complexity of water issues has increased significantly since 2000.

The CLUB 20 Water Committee has been addressing many issues by updating existing Club 20 water resolutions to reflect current status of various issues and develop additional resolutions to address current topics.

The Club 20 committee system is an excellent forum to discuss important issues and attempt to arrive at a reasonable position. The Club 20 committee system is an excellent forum to discuss important issues and attempt to arrive at a reasonable position.
