**ENERGY IMPACT ASSISTANCE PROGRAM**

**WHEREAS:** Concerns have been expressed by business leaders, legislators, and local governments about the types of projects and activities funded through the Energy/Mineral Impact Assistance program, and

**WHEREAS:** The Colorado Department of Local Affairs is again evaluating the policies and priorities of the program, seeking comments and suggestions from affected interests, and holding a public meeting September 12; and

**WHEREAS:** Western Slope communities are the source of most of the funds in this program, and continue to have a strong interest in the spending of those funds in the impacted areas:

**NOW THEREFORE BE IT RESOLVED** that CLUB 20 reaffirms its long-standing insistence that energy/mineral impact funds should be spent in the area of the impact with substantial local control over the priorities, and that CLUB 20 continues to oppose any use of the funds for purposes unrelated to that impact.
