**Executive Order Review and Recision**

**WHEREAS:** President Clinton signed several Executive Orders affecting public lands across the Western states; and

**WHEREAS:** Those Executive Orders often did not follow due process including National Environmental Protection Agency plans and reviews; and

**WHEREAS:** Those Executive Orders have the potential of closing down National Forest activities, transferring land administration between agencies and amending boundaries on public land areas;

**NOW THEREFORE BE IT RESOLVED** that CLUB 20 hereby supports the new administration in its effort to review all of the prior administration's Executive Orders over the next six months.

**BE IT FURTHER RESOLVED** that CLUB 20 encourages the new administration to subject the lands affected by the Executive Orders to the recognized planning processes including local participation and review:

**Adopted March 2, 2001**
