**94-3 PL 7**  
**Trails Network, Western Slope**

**WHEREAS:** Trail projects have been built and are being planned throughout much of Western Colorado, and

**WHEREAS:** Most of the planned and existing trails could be linked together to create a unified trails system and unprecedented recreational opportunities, and

**WHEREAS:** Developing the missing links is especially difficult because they lie in areas without constituencies, often crossing county and regional borders, so that no existing entity is in a position to develop them,

**NOW THEREFORE BE IT RESOLVED** that CLUB 20 should take a leading role in planning the development of missing trails links, in cooperation with all the existing trails organizations in and proximate to Western Colorado.

**Adopted 3-4-94**
