EN-09-01

Taxes, Opposing New Federal Taxes on Energy Industry

WHEREAS the President and Congress are considering up to \$80 billion in tax increases on the domestic energy industry, and

WHEREAS some of these proposed tax increases could also affect other businesses and the manufacturing industry as well, and

WHEREAS these tax increases would cause economic disincentives for energy industry investments, drilling and jobs at a time when these investments should be encouraged in order to improve our economy;

THEREFORE BE IT RESOLVED that CLUB 20 opposes the enactment of federal tax increases on our energy production, distribution and associated support industries, especially at a time when industry investments and jobs should be encouraged.

Adopted April 3, 2009
