93-3 WA 1
County 1041 Powers, Water Projects

WHEREAS: "1041" Land use control powers exercised by counties provide the most affective means for county governments to guarantee proposed water projects are in the best interests of their citizens, and

WHEREAS: Such "1041" powers are a source of constant disagreement with potential water diverters, and

WHEREAS: A current legislative proposal would limit these powers in exchange for the ability to charge an export tax on projects which would divert water across county boundaries,

NOW THEREFORE BE IT RESOLVED that CLUB 20 continues to oppose any attempt to limit the "1041" powers of counties with respect to proposed water projects.
